\$3 Priestley Blacks for 65c yard.

Can it be possible? Yes; here it can. Our great output of merchandise brings anxious importers and manufacturers to us with just such plums. We take the best only, and thereby we save dollars and dollars for you daily.

These \$2, \$2 50 and \$3 Priestley Blacks

sre made of the finest and soltest Valley Cashmere Wool, are called Camel Hair Cloth, although the camel hair is barely visible, are 50 inches wide, and the greatest bar-gain that ever went over a coun-ter at

65c yard. Quarter priced!

Oriental Rugs.

beautiful specimens from Turkey and Persia; and actually lower in price than ordinary domestic Smyrnas.

All this is possible because our spring importations of Oriental Rugs were personally selected and bought at thelowest figures ever known for such choice pleces.

And we say with confidence that no store in America is selling equal Rugs at prices anywhere near as low as ours.

Take these 5 big Carpets, averaging in size from 10.6x &4 to 10x15 feet; they are priced the same proportionally as the whole importation:

\$96 Carpet for \$48. \$120 Carpet for \$60. \$100 Carpet for \$50. \$160 Carpet for \$80. \$140 Carpet for \$70.

With prices like these on lifetime-wearing handmade Orientals will it pay to buy machine made domestics?

Wash Cottons.

Special things we are selling in the basement 40 per cent under regular prices: 12je and 15c Lawns and Dimities for

9c yard. 10c and 12 c Crepons, all the latest colors and kinds, for

8c yard. 160 pieces of the prettiest and best quality Percales ever sold any-where, at

9 I-2c yard. All the above are fadeless.

GREAT TROUBLE.

The Income Decision Causes the Internal Revenue Officers

LOTS OF SERIOUS COMPLICATIONS.

Grave Questions Raised by the Deel sion-New Regulations Necessary as a Result of the Decision-Some of the Questions that are Bothering the Heads of Officials.

Washington, April 9.-The decision of the supreme court yesterday in the income tax case has plunged the internal revenue officials into almost inexplicable mysteries and trouble and the more the decision is studied the greater seem to be the difficulties attending a clear understanding of its scope. The declaration that rents and incomes from real estate are exempted has opened up questions very difficult of solution. The question has arisen and received serious consideration whether the effect of the decision is not to include not only rents proper, but all profits of whatever character growing profits of whatever character growing out of real estate, including farm products, timber, coal and all mine products within the exempt class, so that all roal estate, including buildings thereon, with whatever clase is held by law to be a part of the realty will be entirely exempt from the tax. Whether losses sustained through bad rent debts, the amount of expenses incurred in collecting rents or repairs on houses are to be deducted from incomes, is also a mooted question. Under on houses are to be deducted from incomes, is also a mooted question. Under
the decision rents are not to be included
in assessing the income tax. Suppose,
it is asked, a man's income is of a mixed
character, that is, from real and personal
property. The former is exempt. Can
he deduct the expenses' necessary for
the collection of his income from realty,
from his income from personal propeerty, before making a return? The
question is puzzling the revenue collectors, and a legal opinion on the point
probably will be sought.

Another grave question raised by the
decision is whether the road-bed, roundhouses, stations, etc., of railroads are
real estate or personal property within
the meaning of the law. The laws of
several states are said to differ on this
point and on several others of importance which are involved in the opinion
of the court.

As soon as a verified copy of the opinion can be had the internal revenue officials will begin the preparation of supplementary regulations which will supplementary regulations which will cover in a more or less general way the opinion of the court, leaving the more obstrue questions to be solved as they are presented. Collectors of the tax in different parts of the country already have begun to telegraph for instructions on many points, at the same time stating that the crush of those who desire to make returns has already begun. All things considered it is now thought that the less to the treasury receipts that the loss to the treasury receipts from the income tax source will even exceed fifty per cent of the total that had been expected from this tax and may reach a much higher figure.

THE LEAP IN OIL

It Jamps Up to \$1.40, and \$1.50 Oil Be-lieved to Be in Sight.

PITTSBURGH, April 9 .- Oil took another spurt to-day, and at noon the price had jumped to \$1 40. This is the highest mark since 1882. At the opening the Standard advanced the price of cash oil 7 cents by offering \$1 27. On the exchange May options opened at \$1 29, and rapidly advanced to \$1 344, and then broke to \$1 32. Then it ad-vanced to \$1 40 and remained at that.

vanced to \$1.40 and remained at that. According to the last monthly report there are only \$65 certificates—for 1,000 barrels each outstanding, and a Pittsburgh firm owns half of them.

The main reason for the advance is that producers are not selling direct to the standard, but are putting their oil into the pipe lines and taking out certificates, thus making on them the difference between the cash price and the speculative figure. For cash oil \$1.35 was bid on the exchange, and it is expected the Standard will make another advance before the day is over, and there is a possibility of \$1.50 cil.

THE DEAN TRAGEDY.

Excitement Continues.—The Murder a Most Fiendish One. BALTIMORE, MD., April 9.—Excitement

in Carolina county over the murder of little Sallie Dean continues. The post mortem examination made yesterdas proves conclusively that the brutal assault was committed before her assail sault was committed before her assaulant added murder to his flendish crime. The autopsy goes a long way toward proving that the young girl fought desperately for honor. Her limbs were bruised and scratched, which would not have been the case had the brute had things his own way after having stunned her with a stone when he stoleupon her from behind.

And further, the girl had never erred in virtue. The people are a unit in be-

and nuttuer, the girl has never erred in virtue. The people are a unit in believing that the young school teacher, Corkran, who Price in his confession charged with being the principal actor in the crime, is entirely innocent. The girl's father shares in this belief.

DELAWARE DEADLOCK,

No Nearer & Break Than Ever-Successor o Governor Marvil.

Dover, Del., April 9 .- Contrary to general inspection there was no change when the one hundred and sixth ballot was taken to-day for the United States senator and the deadlock seems no nearer a solution than previous to

no nearer a solution than previous to the death of Governor Marvii.

Immediately after the ballot had been taken the members of both branches entered the senate chamber and Chan-cellor Walcott administered the oath to Speaker of the Senate Watson as gov-ernor. A suitable resolution was then adopted on the death of Governor Mar-vii

vil.

As a mark of respect the members of the general assembly will attend the funeral in a body, and no business bo transacted in the meantime, except the daily balloting for United States senator.

COUNTERFEIT STAMPS.

A Mare's Nest Uncarthed in Chicago-Extensive Operations of the Gang.

Cincago, April 9 .- The Tribune says: United States secret service operatives in Chicago and Washington have unearthed probably the most unique and at the same time important swindle ever perpetrated upon any government.

at the same time important swindle over perpetrated upon any government. Its magnitude, after two days' investigation, can only be guessed at, but it is believed thousands upon thousands of dollars have been secured by a gang of skilled counterfeiters, who have reproduced with wonderful skill and accuracy the pink two-cent stamp of commerce. Whether the counterfeiturs have accomplices in dishonest postmasters is not known. It is thought the country is flooded from New York to San Francisco with these spurious stamps, and the United States has been carrying millions of letters from which not one cent of revenue was received.

Chicago apparently has been the headquarters of the gang, and its product has been shipped to distributing agents through the express companies. Just exactly how the information reached the government officials is not known, but they evidently get a straight tip, for last evoning Captain Stuart, of the postal inspectors' department, and Captain Porter, of the United States secret service bureau, called at the Wells Fargo effice. They were taken to the store room and there found an oblong package, looking like a big roll of music. It contained 10,000 of the counterfeit stamps. It was impossible to get Inspector Stuart or Captain Porter to say a single word regarding the case. No one in the postoffice knew anything about the case. It was said in Washington that while the gang had had its headquarters in Chicago, it has operated extensively in St. Louis, Cincinnati, Buffalo, and as far west as San Francisco. Washington, April 9.—Chief Inspector Wheeler, of the postoffice department, refused to say anything about

exteneively in St. Louis, Cincinnati, Buffalo, and as far west as San Francisco. Washington, April 2.—Chief Inspector Wheeler, of the postoffice department, rofused to say anything about the stamp counterfeiting in Chicago, although he has received several telegrams concerning the affair. It was learned from other officials, however, that the extent of the counterfeiting has been over-estimated. Third Assistant Postmaster General Craig says that counterfeit stamps have carried letters through the mails and have been cancelled, but says that stamp counterfeiting cannot be carried on to any great extent as the cost of making stamps and the difficulty in disposing of them is so great as to render the conterfeiting of little profit. Large purchases of stamps are usually made from responsible and known men. Unknown persons having stamps to sell, he added, are under suspicion of having stolen them having stamps to sell, he added, are under suspicion of having stolen them and large purchases therefore are not likely to be made from them.

Smallpox in Maryland.

La Plata, Mp., April 9.-A smallpox epidemic in a small way has developed near Newburg, this county. Twenty colored persons have thus far been stricken with the malady. Three deaths, two women and one child, have so far resulted. Steps have been taken to prevent the spread of the disease and to care for the affected persons.
